Jed S. Rakoff, <i>RICO: CIVIL & CRIMINAL LAW & STRATEGY</i> (Supp. 2013) §4.02[3].....	24

1 **I. INTRODUCTION**

2 This case pits completely innocent individual victims against an admittedly, yet
 3 unapologetically, guilty conglomerate. Defendant Scotts Miracle-Gro has been
 4 convicted of multiple crimes of dishonesty, including years of illegal Pesticide
 5 Misuse. SMG¹ has admitted that it illegally sold tens of millions of bags of Morning
 6 Song Bird Food (“MSBF”) that it had illegally treated with pesticides that are
 7 expressly labeled as hazardous to birds. ¶2.² No consumer would have knowingly
 8 purchased such a product, which SMG confirmed by dumping in landfills over two
 9 million bags of it. Yet, consumers were left holding the bag – over 60 million bags to
 10 be more precise. This is a prototypical pursuit of justice, and the class-action vehicle
 11 is the only way to reach that destination.

12 Despite SMG’s guilty plea, its admissions, and its professed “no quibble”
 13 money back guarantee policy, SMG refuses to refund the hundreds of millions of
 14 dollars consumers spent on a product that was illegal to sell, improper to use, and fit
 15 for nothing other than burial in landfills. This is precisely the type of wrong that Rule
 16 23 was intended to right: ““a case involving a defect that may have imposed costs on
 17 tens of thousands of consumers, yet not a cost on any one of them large enough to
 18 justify the expense of an individual suit.”” *Suchanek v. Sturm Foods, Inc.*, 764 F.3d
 19 750, 2014 U.S. App. LEXIS 16259, at *22 (7th Cir. Aug. 22, 2014).³

20 This entire case consists of common questions whose common answers are
 21 provided by common evidence. Did Defendants illegally treat bird “food” with a
 22 pesticide that was hazardous to birds and other animals? Did Defendants conceal this
 23 information from consumers? Was this information something that would have had a
 24 natural tendency to influence a reasonable consumer? Did Defendants’ acts and

25 ¹ Capitalized terms have the same meaning as Plaintiffs’ Amended Consolidated
 26 Class Action Complaint (“Complaint”), filed on January 31, 2013. Dkt. No. 26.

27 ² “¶__” references are to the Complaint.

28 ³ Here and throughout, citations are omitted and emphasis is added unless noted.

omissions cause consumers to pay for defendants' illegal product? However favorably or unfavorably these questions are answered, the answers must be the same for all proposed class members. That is why certifying this case as a class action is not just the right way to proceed. It is the only reasonable way to proceed.

Plaintiffs respectfully request that the Court certify the following Class for their RICO claims (Count 1): All persons who purchased, and have not yet received a full refund for, a Scotts Miracle-Gro wild bird food product containing Storcide II, Actellic 5E, or their active ingredients, chlorpyrifos-methyl or pirimiphos-methyl, respectively ("MSBF"). All persons who purchased, and have not yet received a full refund for, a Scotts Miracle-Gro wild bird food product between November 2005 and May 2008 are necessarily part of this class. Plaintiffs further request the Court certify three subclasses for claims in California (Counts 3-5), Missouri (Count 10), and Minnesota (Count 9).⁴

II. FACTS THAT ARE COMMON TO THE CLASS

A. Overview of Defendants' Scheme to Make and Sell so-Called Bird "Food" Containing Bird Poison

As alleged in the Complaint,⁵ Defendants engaged in an illegal nationwide scheme to make and distribute tens of millions of bags of "premium" bird food containing bird poison. Defendants marketed these products under various brand names, including Morning Song, Country Pride, Scotts' Songbird Selection, and

⁴ In the interest of judicial economy, Plaintiffs have limited the claims for which they are presently seeking class certification. If granted, these claims will protect the interests of all victims of Defendants' alleged nationwide scheme. While Plaintiffs are mindful of the Court's and the parties' time and resources, class certification is an interlocutory issue, and Plaintiffs reserve the right to move for leave to seek class certification on the other claims in this case, depending on the Court's decision.

⁵ With this reference, Plaintiffs incorporate all of the Complaint's allegations. "On a motion for class certification, the Court 'is bound to take the substantive allegations of the complaint as true.' *Blackie v. Barrack*, 524 F.2d 891, 901 n. 17 (9th Cir. 1975). However, the Court is 'explicitly requir[ed] . . . to probe behind the pleadings if doing so is necessary to make findings on the Rule 23 certification decision.' *Dukes v. Wal-Mart Stores, Inc.*, 603 F.3d 571, 589 (9th Cir. 2010)." *In re Nat'l W. Life Ins. Deferred Annuities Litig.*, 268 F.R.D. 652, 659 (S.D. Cal. 2010) ("*Nat'l W. Life. I*").

1 Scotts' Wild Bird Food.⁶ Defendants executed the scheme through the enterprise,
 2 Gutwein, a separately-incorporated entity that SMG and Defendant Scotts LLC
 3 managed and operated during the relevant time frame. *See* ¶¶47-52. Using the cover
 4 of Gutwein's separate corporate status, Defendants executed the scheme by using
 5 illegal pesticides to extend the shelf life of the product; concealing the pesticide use;
 6 and pocketing the hundreds of millions in revenues and profits from the scheme.

7 Specifically, Defendants manufactured, distributed, and sold Morning Song
 8 Bird Food treated with Storcide II and Actellic 5E pesticides, both of which are
 9 banned for use in bird food because they are known to be toxic to birds and wildlife.⁷
 10 Until SMG pleaded guilty to this federal crime in 2012, Defendants had concealed this
 11 critical fact to consumers. ¶29. Defendants avoided detection by marketing the
 12 products as food for wild birds and animals, which Defendants expected would take
 13 the feed and fly, swim, or scurry away, so that any toxic effects of the "food" would
 14 go undetected. ¶42.

15 These pesticides are so toxic to birds that it is a federal crime to use them in
 16 bird food, and the EPA-mandated Storcide II label (which Defendants' employees
 17 handled on a daily basis) expressly warns against giving birds access to seeds treated
 18 with this pesticide, let alone enticing them to feed on the seeds:⁸

19
 20
 21 ⁶ *See* ¶2; *see, e.g.*, Ex. 2 (DEFS_E00000177 at 182-87) (4/10/08 and 4/17/08 emails
 22 from Scotts LLC and Guwein to the FDA, attaching spreadsheet of affected products
 23 and estimate of units at that time); *see also* Ex. 3 at 4, Scotts' Verified Responses to
 Plaintiffs First Set of Interrogatories ("Scotts' Rog Responses") (verifying that
 Defendants sent email to the FDA).

24 ⁷ *See* Ex. 4, (*U.S. v. The Scotts Miracle Gro-Co.*, 2:12-cr-00024-JLG (S.D. Ohio,
 25 filed Jan. 25, 2012) ("*SMG Criminal Case*") Dkt. Nos. 3, 23 (Plea Agreement &
 26 Judgment)). Plaintiffs request that the Court take judicial notice of these documents.
See Rosales-Martinez v. Palmer, 753 F.3d 890, 894 (9th Cir. 2014) ("It is well
 established that we may take judicial notice of judicial proceedings in other courts.").

27 ⁸ Ex. 5 (DEFS_E00000049 at 52) (Storcide II label); *see also* Ex. 6 (DEFS0000560
 28 at 565) (Storcide II Material Safety Data Sheet ("MSDS") warns: "Highly toxic to
 fish. Toxic to birds. Toxic to wildlife.").

ENVIRONMENTAL HAZARDS

STORCIDE II insecticide is extremely toxic to fish and toxic to birds and other wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not discharge directly or indirectly into surface waters. Do not contaminate water by cleaning of equipment or disposal of wastes.

Exposed treated seeds are hazardous to birds and other wildlife. Dispose of all excess treated seeds and seed packaging by burial away from bodies of water.

This pesticide is highly toxic to bees exposed to direct treatment or residues on crops or weeds. Do not apply STORCIDE II insecticide or allow it to drift onto crops or weeds on which bees are actively foraging.

¶43(d). Storcide II's primary active ingredient is chlorpyrifos-methyl, which is known to be "moderately to very highly toxic to birds."⁹ The "EPA requires precautionary language on chlorpyrifos product labels, warning of the hazard that this insecticide poses to birds, wildlife and aquatic organisms." *Id.* And, in fact, the Storcide II label says any treated seeds are so hazardous to birds and other wildlife that they should be disposed of "by burial away from bodies of water." *Id.* Yet, instead of burying the treated seed as required, Defendants brazenly bagged it up and sold the treated seed to the consuming public for the express purpose of feeding birds.

Similarly, it is a federal crime to use Actellic 5E in bird food.¹⁰ ¶3. Actellic 5E's common name or synonym is pirimiphos-methyl,¹¹ which is known to be "highly toxic to birds and aquatic organisms."¹² Though Defendants claim they "recalled" all products treated with Actellic 5E (*i.e.*, pirimiphos-methyl) in 2008, laboratory testing found pirimiphos-methyl in the Morning Song Bird Food purchased by the Cypherts

⁹ Ex. 7 (Pesticide Information Profile of Chlorpyrifos).

¹⁰ See *supra* n.7; Exs. 4 & 8 (Plea Agreement & Information).

¹¹ See Ex. 9 (Actellic 5E MSDS, which says at page 1 the pesticide's "common name" is Pirimiphos methyl); Ex. 10 (DEFS E00000073 at 73) (prior Actellic 5E MSDS says that the synonym for Actellic 5E is "Pirimiphos methyl").

¹² Ex. 9 (Actellic 5E MSDS at page 4 says "[t]his product is considered to be highly toxic to birds and aquatic organisms."); Ex. 11 (EPA Fact sheet for Pirimiphos-methyl says at page 2 "pirimiphos-methyl is highly toxic to birds and fish"; though it says risks are not of concern based on "use pattern", uses do not include bird food).

1 in late 2009.¹³ The product was sent for testing after the Cypherts used the seed once
 2 to feed the 100 finches in their aviary and all but 8 died.¹⁴

3 **B. In 2012, Defendants Pleaded Guilty to the Crime of Illegally**
 4 **Using Toxic Pesticides in Bird Food**

5 In January 2012, SMG entered into a plea agreement with the federal
 6 government, admitting guilt to 11 counts of separate misdemeanors relating to its
 7 misuse and misbranding of various pesticides. Among other crimes, SMG admitted
 8 that it had for years *knowingly* manufactured, marketed, and sold tens of millions of
 9 bags of Morning Song Bird Food it had illegally treated with pesticides. SMG was
 10 sentenced to pay \$4.5 million in penalties and charitable donations; its fine was the
 11 largest criminal penalty to date under the federal FIFRA, which governs pesticide use.
 12 ¶36.

13 In its plea agreement, SMG “admit[ted] to the facts alleged in the Information,
 14 that it committed the offenses charged in the Information and that it is in fact guilty of
 15 these offenses.”¹⁵ These facts included that Defendants distributed for sale 73 million
 16 units of Morning Song Bird Food treated with Storcide II and Actellic 5E, which are
 17 illegal in bird food and expressly labeled as toxic to birds, and that SMG continued to
 18 do so for months even after employees warned them to stop.¹⁶

19 SMG’s plea agreement was the first time SMG publicly revealed its crimes and

20 ¹³ See Ex. 13 (FOIA FDA 0000025 at 5) (2/10/10 DHHS report says sample #349570
 21 was taken from bag used to feed birds, and sample #349571 was taken directly from
 22 feeder); Ex. 14 (FOIA FDA 0000119) (reflecting lab results from sample #349570,
 23 which states the conclusion that it contained “pirimiphos-methyl”); Ex. 15 (FOIA
 FDA 0000131) (reflecting lab results from sample #349571, which states the
 conclusion that it contained “pirimiphos-methyl”).

24 ¹⁴ See *id.*; Declaration of Laura Cyphert in Support of Class Certification (“L.
 25 Cyphert Decl.”), ¶5; see generally Declaration of Milton Cyphert in Support of Class
 Certification, (“M. Cyphert Decl.”), ¶5.

26 ¹⁵ See Ex. 4 at 2 (*SMG Criminal Case* Dkt. No. 3).

27 ¹⁶ See Ex. 8 (*SMG Criminal Case*, Dkt. No. 1, at 4-5 (Information)). Plaintiffs also
 28 request that the Court take judicial notice of the Information, whose allegations
 Defendants admitted in their Plea Agreement. See *supra*, n.7.

1 the identities of the toxic pesticides Defendants had knowingly and illegally used.

2 **C. Defendants Knew About the Crime but Hid It for Years**

3 Contrary to Defendants' representations to this Court, as well as to Judge
4 Graham of the Southern District of Ohio, they did not voluntarily stop as soon as they
5 discovered the crime.¹⁷ Defendants have admitted that they knew about the illegal
6 pesticides throughout the entire time they used them, and at least by June 2006, when
7 SMG's Environmental, Health and Safety Regional Manager, Sara Brenner, flagged
8 the issue during her site visit to SMG's Doland, South Dakota plant.¹⁸ But,
9 Defendants continued to use the pesticides for another two years, because there was a
10 competitive advantage, and thus a profit, in doing so. ¶38.

11 By summer of 2007, Defendants had received "reports about birds dying all
12 over the United States . . . a lot of birds," including wild birds.¹⁹ On August 13, 2007,
13 a Texas customer complained that, [REDACTED]

14 [REDACTED] .²⁰
15 And, on August 19, 2007, an Oklahoma customer called and "[REDACTED]

16 [REDACTED]
17 [REDACTED] .²¹

18 Defendants received additional complaints from within their own organizations.

19 _____
20 ¹⁷ See Dkt. No. 32-1 at 16-17 (Defs' Motion to Dismiss Cmpt.).

25 ¹⁹ Ex. 18 (CYPHERT 00000223-225) (Ohio Bureau of Criminal Identification and
26 Investigation, 11/20/08 Investigative Report re: Return Telephone Call from Mario A.
27 Olmos).

28 ²⁰ Ex. 19 (DEFS_E00000003).

²¹ Ex. 20 (DEFS_E00000006).

1 Mario Olmos, an ornithologist; its Senior Specialist in the Regulatory Department
 2 (Kris Mantey); and its Director of Regulatory Affairs (Kathleen Lee), all tried to stop
 3 SMG's illegal practice. By October 16, 2007, the matter was of such grave concern
 4 that SMG's Director of Innovations, Andy Wong, seized an opportunity to implore
 5 Defendants' highest-ranking officers to end this illegal practice, which Mr. Wong
 6 explained coincided with a number of customer complaints about bird deaths. SMG's
 7 CEO and Chairman, James Hagedorn, and Senior Counsel, Juan Johnson, were among
 8 those present to hear Mr. Wong's plea.²² But that plea fell on deaf ears, as Defendants
 9 continued with their illegal scheme for another five months while they illegally sold
 10 millions more bags of this illicit product to unwitting consumers.²³

11 As Wong urged SMG's highest-ranking officers to follow the law, Mantey and
 12 Olmos told senior-level employees to stop using Storcide II.²⁴ In an October 19, 2007
 13 email, Mantey wrote: "[REDACTED]"

14
 15 ²²

16 [REDACTED]
 17 [REDACTED] 4 & Ex. A thereto); Exs. 23-24
 18 (DEFS E00004968; DEFS E00005142-43) (meeting agenda); Ex. 3 (Scotts' Rog.
 19 Responses, Interrogatory No. 1(b), (c)); Ex. 25 (DEFS E00005015); Ex. 26
 (DEFS E00000011) (10/17/07 Email from Kris Mantey relaying that Wong had
 mentioned the bird deaths at the meeting).

20 ²³ See, e.g., Ex. 27 (DEFS E00000035) (11/1/07 Email from Kris Mantey to
 21 Hegewald and Medley asking to confirm they stopped); Ex. 28 (DEFS E00000036)
 22 (11/12/07 Email from Dir. Regulatory Affairs requesting action); Ex. 29
 (DEFS [REDACTED])

 25 [REDACTED]
 26 [REDACTED]
 27 ²⁴ See ¶¶ 43(b), (d); Ex. 3 (Defs' Rog. Responses, Interrogatory No. 2(a)); Ex. 31
 28 (DEFS E00000058) (Kris Mantey and Mario Olmos told Jeff Medley and Glenn
 Hegewald to stop using Storcide as it is illegal and toxic to birds and wildlife).

1 [REDACTED]²⁵ But SMG's management
 2 ignored their own regulatory affairs personnel and these recommendations went
 3 unheeded.²⁶ By November, a Director of Regulatory Affairs had taken up the torch
 4 with the Director of Bird Food in an effort to stop the illegal conduct.²⁷

5 By the spring of 2008, Olmos was so upset with Defendants' continued use of
 6 the pesticides that he threatened to report Defendants to the EPA. ¶5. By that time,
 7 Defendants knew they were the subjects of an EPA investigation into other
 8 misconduct. *Id.* That made the threat of going to the EPA a potent weapon. *Id.* Due
 9 to these pressures, Defendants decided to shift their tactics in spring of 2008. *Id.*

10 **D. Prior to 2012, Defendants' Lulling Communications**
 11 **Concealed the True Nature of the Defect from the Public**

12 Yet, even as they were cornered, Defendants refused to come clean. On March
 13 26, 2008, Scotts LLC sent a letter to the FDA, purporting to be a notice of voluntary
 14 recall framed as a technical violation.²⁸ Moreover, Scotts misrepresented that its
 15 "executive management was informed of the use of the pesticides on March 10, 2008
 16 after the Company reviewed a consumer complaint it received [about caged, domestic

17 ²⁵ Ex. 31 (DEFS_E00000058) (10/19/07 Email from Kris Mantey memorializing the
 18 meeting and attaching labels and MSDS's for Storcide II and Actellic 5E); *see also*

 27 [REDACTED]
 28 [REDACTED]

²⁸ ¶5; Ex. 33 (DEFS_E00001414 at 15) (3/26/08 Letter from Scotts to FDA).

birds] on February 28, 2008.” *Id.* Defendants’ letter in turn caused the FDA to issue a misleading enforcement report indicating the product should be used **only** for feeding wild birds and animals, as opposed to domestic birds and pets. ¶43(d).

On March 25, 2008, Defendants perpetuated their fraud with an innocuously worded letter to “Fellow Bird Lover[s]” that said Scotts was “replacing” Morning Song Bird Food products as “[REDACTED]

”²⁹ However, Defendants knew about but concealed the identities of the pesticides, concealed the warnings on their labels, concealed the danger those pesticides posed to birds, concealed the illegality of their use, lied about the fact Defendants had known about it for years, and did not offer to take back any unused product or provide refunds and failed to instruct them to dispose of the seeds by burying them away from bodies of water as the Storcide II label required, or to throw them into landfills, which is what Defendants ultimately did.³⁰ *Id.* Still worse, Defendants placed Olmos’s name and his title as an Ornithologist at the bottom of the letter, representing that the bird expert had penned the letter. The clear implication was that, if he as an expert was not concerned, no one else need be. *Id.* But Olmos had not written the letter, nor approved it, nor authorized his name to be placed on it.³¹

Accordingly, some retailers did not remove the product from their shelves and consumers continued to purchase and use the product without being apprised of the pesticides. ¶6. Of the 60-70 million units sold to consumers, none was recovered as a result of Defendants’ “Fellow Bird Lover” letter because Defendants did not invite consumers to return this product – Defendants extended such an invitation only to

²⁹ Ex. 34 (DEFS0002846).

³⁰ Ex. 33 (DEFS_E00001414 at 21). [REDACTED] nts’ disposal process to the FDA as transporting the product to “[REDACTED]” for disposal).

³¹ Ex. 18 (Ohio Bureau of Criminal Identification and Investigation, 11/20/08 Investigative Report re: Return Telephone Call from Mario A. Olmos).

1 retailers, who returned less than two million bags.³²

2 **E. There Has Been No Consumer Recall Program**

3 Even though Defendants represent that they initiated a “voluntary recall” of
4 their hazardous bird food, it was neither voluntary nor a consumer recall program (as
5 explained above).³³ Thus, there has never been a consumer recall, and Defendants
6 have not refunded consumers’ hard-earned money.

7 And despite Defendants’ representations that the bird poison was withdrawn
8 from the market in 2008, there is evidence it was not. In fact, the Morning Song Bird
9 Food purchased by the Cypherts in January of 2010 contained the very same poison
10 pirimiphos-methyl that SMG had told the government it stopped using in 2008.³⁴

11 **III. CLASS CERTIFICATION IS WARRANTED HERE**

12 **A. Applicable Legal Standards**

13 Courts certify a class pursuant to Rule 23 when:

14 (1) the class is so numerous that joinder of all members is impracticable;
15 (2) there are questions of law or fact common to the class; (3) the claims
16 or defenses of the representative parties are typical of the claims of the
class; and (4) the representative parties will fairly and adequately protect
the interests of the class[.]

17 and the class satisfies the predominance and superiority prongs. Fed. R. Civ. P. 23.

18 In deciding motions for class certification, the Court “examine[s] the merits of
19 the underlying claim . . . only inasmuch as it must determine whether common
20 questions exist; not to determine whether class members could actually prevail on the
21 merits of their claims.” *Ellis v. Costco Wholesale Corp.*, 657 F.3d 970, 983 n.8 (9th
22 Cir. 2011). The Court has broad discretion to grant class certification. *See Bateman*
23 *v. Am. Multi-Cinema, Inc.*, 623 F.3d 708, 712 (9th Cir. 2010). The Court of Appeals

24
25 ³² ¶41; Ex. 8 (*SMG Criminal Case*, Dkt. No. 1, at 5 (Information)).

26 ³³ *See* Dkt. No. 37-2 (Retailer & Distributor Telephone Script, attached as Ex. 1 to
27 Forge Decl. in Support of Pls’ Opp. to Defs’ Motion to Dismiss Cmpt.) (Defendants’
admission that “*we do not intend to pursue a consumer recall*”).

28 ³⁴ *See supra* n.13.

1 “accords the district court noticeably more deference than when it reviews a denial of
2 class certification.” *Parsons v. Ryan*, 754 F.3d 657, 673 (9th Cir. 2014).

3 **B. The Requirements of Rule 23(a) Are Readily Met**

4 In making its decision, this Court examines Plaintiffs’ showing on each of the
5 requisite prongs of Rule 23, starting with Rule 23(a)’s numerosity, commonality,
6 typicality, and adequate representation prongs. *See Parsons*, 754 F.3d at 674.

7 **1. The Class Is Sufficiently Numerous**

8 Rule 23(a)(1) requires that “the class is so numerous that joinder of all class
9 members is impracticable.” Numerosity is satisfied when the class exceeds forty
10 members. *See Slaven v. BP Am., Inc.*, 190 F.R.D. 649, 654 (C.D. Cal. 2000). Here,
11 the Class consists of millions of persons who purchased the Morning Song Bird Food,
12 and the proposed subclasses consist of tens of thousands of people each.

13 **2. There Are Common Questions of Fact or Law**

14 Rule 23(a)(2) requires “questions of law or fact common to the class.” Fed. R.
15 Civ. P. 23(a)(2). The Supreme Court has said that, to satisfy commonality, “even a
16 single common question will do.” *Wal-Mart Stores, Inc. v. Dukes*, __ U.S. __, 131 S.
17 Ct. 2541, 2556 (2011). As the Ninth Circuit put it, “[w]here the circumstances of each
18 particular class member vary but retain a common core of factual or legal issues with
19 the rest of the class, commonality exists.” *Parsons*, 754 F.3d at 675 (alteration in
20 original). And, commonality exists where “the plaintiffs’ claims and those of the class
21 they would like to represent all derive from a single course of conduct by [the
22 defendant],” such as the “marketing and packaging” of an allegedly falsely advertised
23 or defective product. *Suchaneck*, 2014 U.S. App. LEXIS 16259, at *14.

24 Here, Plaintiffs’ RICO claims readily satisfy commonality, as they focus on
25 Defendants’ scheme, which ensnared Plaintiffs and the other Class Members alike.
26 *See, e.g., Sykes v. Mel Harris & Assocs. LLC*, 285 F.R.D. 279, 290 (S.D.N.Y. 2012)
27 (RICO claim involving false affidavits to obtain fraudulent default judgments). As
28 Plaintiffs allege that the Class’s “injuries derive from defendants’ alleged ‘unitary

1 course of conduct,” they have sufficiently “identified a unifying thread that warrants
 2 class treatment.” *Id.* Similarly, commonality exists for the state claims as Plaintiffs’
 3 and the classes’ claims “derive from a single course of conduct” – Defendants’
 4 distribution of Morning Song Bird Food without disclosing that the seed were illegally
 5 treated with toxic pesticides that are hazardous to birds. ¶3; *see Suchaneck*, 2014 U.S.
 6 App. LEXIS 16259, at *14.

7 The Seventh Circuit recently reversed denial of class certification in case about
 8 a coffee product, finding whether the “packaging was likely to deceive a reasonable
 9 consumer” satisfies commonality.³⁵ *See Suchaneck*, 2014 U.S. App. LEXIS 16259, at
 10 *15, *19-*20. There, the district court rejected commonality because the class could
 11 include members unharmed by the misleading marketing. *See id.* at *16-*17. The
 12 Seventh Circuit reversed: “If the court thought that no class can be certified until
 13 proof exists that every member has been harmed, it was wrong.” *Id.*

14 Even the rejected standard in *Suchaneck* would be satisfied here, as SMG has
 15 admitted it illegally sold an illegal product, and Defendants conceded the
 16 worthlessness of that product when they dumped two million bags of it in landfills. In
 17 any event, the deceptiveness and materiality of Defendants’ concealment of their
 18 admittedly illegal conduct and the illegality of their admittedly poison-laced product
 19 are plainly common questions of law and fact for all class members and all claims.

20 **3. Plaintiffs’ Claims Are Typical of the Class**

21 “Rule 23(a)(3) requires that ‘the claims or defenses of the representative parties
 22 are typical of the claims or defenses of the class.’ *Parsons*, 754 F.3d at 685 (quoting
 23 Fed. R. Civ. P. 23(a)(3)). Typicality is met if the class representative’s claim is
 24 “reasonably co-extensive with those of absent class members; they need not be

25 _____
 26 ³⁵ As the Court noted, the “question whether the [product] packaging was likely to
 27 mislead a reasonable consumer” is “an objective question, not one that depends on
 28 each purchaser’s subjective understanding of the package.” *Id.* at *19. Packaging
 may be misleading even if it does not contain a literal falsehood, and the resolution of
 this issue is more closely akin to a finding of fact, than a question of law. *Id.* at *28.

1 substantially identical.” *Id.* “The purpose of the typicality requirement is to assure
 2 that the interest of the named representative aligns with the interests of the class.”
 3 *Hanon v. Dataproducts Corp.*, 976 F.2d 497, 508 (9th Cir. 1992). Where the plaintiff
 4 suffered a similar injury and other class members were injured by the same course of
 5 conduct, typicality is satisfied. *See Parsons*, 754 F.3d at 685.

6 Here, the same course of conduct that injured Plaintiffs also injured other Class
 7 members. From 2005 to 2010, the Robbins Geller Plaintiffs Cypherts were duped into
 8 purchasing Morning Song Bird Food. *See* L. Cyphert Decl., ¶3; M. Cyphert Decl., ¶3.
 9 Predictably, the Cypherts cannot say exactly how many bags of Morning Song Bird
 10 Food they purchased, but they can with certainty testify that from November 2005
 11 through December 2009, they purchased an absolute *minimum* of four large bags per
 12 year, beginning with one in late 2005. *See* L. Cyphert Decl., ¶3; M. Cyphert Decl., ¶3.
 13 The Cypherts would not have purchased a single bag had Defendants disclosed it was
 14 illegally treated with pesticides that are toxic and hazardous to birds and other
 15 wildlife. *See* L. Cyphert Decl., ¶4; M. Cyphert Decl., ¶4.

16 Similarly, the Dowd/Driscoll Plaintiffs Barbara Cowin, Ellen Larson, and David
 17 Kirby all bought Morning Song Bird Food products on a weekly or routine basis from
 18 2005 until 2012, for their wild bird feeders. *See* Declaration of Barbara Cowin in
 19 Support of Class Certification (“Cowin Decl.”), ¶3; Declaration of Ellen Larson in
 20 Support of Class Certification, ¶3 (“Larson Decl.”); and Declaration of David Kirby in
 21 Support of Class Certification, ¶3 (“Kirby Decl.”). These Plaintiffs, too, would not
 22 have purchased a single bag had Defendants disclosed it was illegally treated with
 23 pesticides that are toxic and hazardous to birds. *Id.* As the scheme that harmed
 24 Plaintiffs is the same as to the Class, typicality is readily met.

25 **4. Plaintiffs Will Adequately Represent the Class**

26 Rule 23(a)(4) requires the representatives to adequately protect the Class. This
 27 turns “on the qualifications of counsel for the representatives, an absence of
 28 antagonism, a sharing of interests between representatives and absentees, and the

1 unlikelyhood that the suit is collusive.” *Crawford v. Honig*, 37 F.3d 485, 487 (9th Cir.
2 1994)).

3 Plaintiffs do not have any interests antagonistic to Class members and will
4 vigorously protect their interests. L. Cyphert Decl., ¶9; M. Cyphert Decl., ¶7; Cowin
5 Decl., ¶7; Larson Decl. ¶7; Kirby Decl. ¶7. These Plaintiffs, like each Class member,
6 have a strong interest in proving Defendants’ scheme and obtaining refunds.
7 Moreover, Plaintiffs propose the Robbins Geller Plaintiffs, the Cypherts, will
8 represent California; Dowd/Driscoll Plaintiff Ms. Cowin will represent Missouri; and
9 Dowd/Driscoll Plaintiff Ms. Larson will represent Minnesota to ensure the proposed
10 Class representatives’ claims are materially identical to other Class members they
11 seek to represent. As Plaintiffs and the Class claims arise from the same course of
12 conduct, typicality is met. *See Hartless v. Clorox*, 273 F.R.D. 630, 637 (S.D. Cal.
13 2011).

14 Finally, the Robbins Geller Plaintiffs, the Cypherts, and the Dowd/Driscoll
15 Plaintiffs, Cowin, Larson, and Kirby, understand their duties as class representatives;
16 agree to consider Class members’ interests; and have, and will continue to, actively
17 participate in this litigation. *See* L. Cyphert Decl., ¶¶9-10; M. Cyphert Decl., ¶¶7-8;
18 Cowin Decl., ¶¶7-8; Larson Decl. ¶¶7-8; Kirby Decl. ¶¶7-8.

19 **5. Co-Lead Counsel Are Qualified to Serve as Class** 20 **Counsel Pursuant to Rule 23(a) and (g)(1)**

21 Adequacy also “depends on the qualifications of counsel for the
22 representatives” *Crawford*, 37 F.3d at 487. Rule 23(g)(1) requires the Court to
23 appoint class counsel, considering: (i) counsel’s work in investigating potential
24 claims; (ii) their experience in class actions and the types of claims asserted in the
25 action; (iii) counsel’s knowledge of the applicable law; and (iv) the resources that
26 counsel will commit to the case. *See Makaeff v. Trump Univ., LLC*, No. 10-cv-0940-
27 GPC-WVG, 2014 U.S. Dist. LEXIS 22392, at *61 (S.D. Cal. Feb. 21, 2014).
28

Co-Lead Counsel are highly-qualified lawyers who have experience in successfully prosecuting high-stakes complex cases and consumer class actions. *See, e.g., Makaeff*, 2014 U.S. Dist. LEXIS 22392, at *64 (appointing same attorneys from Robbins Geller to serve as co-class counsel). As support, Co-Lead Counsel submit their firm resumes setting forth their experience and expertise in class actions and the claims that Plaintiffs seek to certify: RICO and state consumer fraud statutes. *See* Declaration of Jason A. Forge, ¶¶8-9, 12, 14 & Ex. 1; Declaration of Douglas P. Dowd, ¶¶5-12, 14 & Ex. 1; Declaration of John J. Driscoll, ¶¶5-13 & Ex. 1. These firms have already undertaken substantial work in this litigation and stand ready, willing and able to devote the resources necessary to see this case through to a successful outcome. *See* Forge Decl. ¶15; Dowd Decl. ¶15; Driscoll Decl. ¶23.

C. Rule 23(b)(3)'s Requirements Are Readily Met

“The [Rule 23](b)(3) ‘opt-out’ class facilitates the ‘vindication of the rights of groups of people who individually would be without effective strength to bring their opponents into court at all.’” *Suchanek*, 2014 U.S. App. LEXIS 16259, at *22 (quoting *Amchem Prods. v. Windsor*, 521 U.S. 596, 617 (1997)). Plaintiffs must show (i) “that the questions of law or fact common to class members predominate over any questions affecting only individual members,” and (ii) that a class action is “superior to other available methods for fairly and efficiently adjudicating the controversy.” Fed. R. Civ. P. 23(b)(3). This case satisfies both predominance and superiority.

1. Common Issues of Law and Fact Will Predominate

“Predominance is a question of efficiency.” *Butler v. Sears*, 702 F.3d 359, 362 (7th Cir. 2012). Predominance is readily met in consumer cases like this one. *See Amchem Prods.*, 521 U.S. at 625. Consumer claims based on uniform omissions are readily certifiable where the claims are “susceptible to proof by generalized evidence,” even if individualized issues remain. *Wolin v. Jaguar Land Rover N. Am., LLC*, 617 F.3d 1168, 1173, 1176 (9th Cir. 2010).

Indeed, “[e]very consumer fraud case involves individual elements of reliance or causation. . . . [A] rule requiring 100% commonality would eviscerate consumer-fraud class actions.” *Suchanek*, 2014 U.S. App. LEXIS 16259, at *22. “And because few if any injured parties would bring suit to recover the paltry individual damages available in most consumer fraud cases, such a rule would undermine enforcement against ‘tortious harms of enormous aggregate magnitude but so widely distributed as not to be remediable in individual suits,’ in direct contradiction of Rule 23(b)(3)’s purpose.” *Id.* at *22-*23 (citing *Butler*, 727 F.3d at 798; citing *Carnegie v. Household Int’l*, 376 F.3d 656, 661 (7th Cir. 2004) (“The *realistic* alternative to a class action is not 17 million individual suits, but zero individual suits, as only a lunatic or a fanatic sues for \$30.”)). If common issues “present a significant aspect of the case and they can be resolved for all members of the class in a single adjudication,” then it is a suitable case for classwide adjudication. *See Hanlon v. Chrysler Corp.*, 150 F.3d 1011, 1022 (9th Cir. 1998). Common issues present a significant aspect of this case and, thus, it is a good candidate for certification.

a. The RICO Claim Raises Common Questions that Will Turn on Common Proof that Will Yield Common Answers

First, in denying in large part Defendants’ motions to dismiss, the Court found that Plaintiffs had sufficiently stated claims under the federal RICO Statute. *See* Dkt. No. 44 at 19. Not only are Plaintiffs’ RICO claims legally sufficient, but they are susceptible to classwide treatment on a nationwide basis.

The Ninth Circuit favors class treatment of fraud claims stemming from a “common course of conduct,” like the scheme that is alleged here. *See In re First Alliance Mortg. Co.*, 471 F.3d 977, 990 (9th Cir. 2006)); *see, e.g., Negrete v. Allianz Life Ins. Co. of N. Am.*, 238 F.R.D. 482, 492 (C.D. Cal. 2006) (common questions about the “overarching fraudulent scheme” to sell deferred annuities predominated for RICO claims). With respect to RICO, “[t]he issues of law and fact in making out a RICO violation will generally be common to all Plaintiffs’ claims, because Plaintiffs

1 are asserting a single fraudulent scheme by the defendants which injured each
 2 plaintiff.” *In re United Energy Corp. Solar Power Modules Tax Shelter Inv. Sec.*
 3 *Litig.*, 122 F.R.D. 251, 255 (C.D. Cal. 1988) (citing *McMahon Books, Inc. v. Willow*
 4 *Grove Assocs.*, 108 F.R.D. 32, 38-39 (E.D. Pa. 1985)); accord *Friedman v. 24 Hour*
 5 *Fitness USA, Inc.*, No. CV 06-6282 AHM (CTx), 2009 U.S. Dist. LEXIS 81975, at
 6 *22-*23 (C.D. Cal. Aug. 25, 2009) (“Common issues frequently predominate in RICO
 7 actions that allege injury as a result of a single fraudulent scheme.”).

8 The elements of Plaintiffs’ RICO claims include Defendants’ “(1) conduct (2)
 9 of an enterprise (3) through a pattern (4) of racketeering activity.” Dkt. No. 44 at 15;
 10 see *Sedima, S.P.R.L. v. Imrex Co.*, 473 U.S. 479, 496 (1985)); see *Cedric Kushner*
 11 *Promotions, Ltd. v. King*, 533 U.S. 158, 160 (2001). Plaintiffs must also show harm
 12 to their business or property by the racketeering activity. *Id.*

13 As to each of these elements, every Class member would prove them with the
 14 same evidence, and the answer would be the same as to each. For example, under the
 15 first element, SMG either did or did not conduct the Morning Song Bird Food
 16 Enterprise. “In order to ‘participate, directly or indirectly, in the conduct of such
 17 enterprise’s affairs,’ one must have some part in directing those affairs.” *Reves v.*
 18 *Ernst & Young*, 507 U.S. 170, 179 (1993). This element must be proved through
 19 common proof about Defendants’ mutual participation and control of the scheme to
 20 sell the Morning Song Bird Food without disclosing the toxic pesticide use. The same
 21 is equally true for the remaining three elements, as the Enterprise itself and
 22 Defendants’ pattern of racketeering activity will all be proven with the same evidence
 23 as to each Class member. Therefore, both the proof and the answer as to each element
 24 will be the same for each Class member.

25 To establish the predicate acts of mail and wire fraud, Plaintiffs must prove that:
 26 (1) Defendants devised a scheme to defraud by means of false or fraudulent pretenses;
 27 (2) the statements made or facts omitted were material – that is, they had a natural
 28 tendency to influence, or were capable of influencing, a person to pay money;

(3) Defendants acted with the intent to defraud – that is, the intent to deceive or cheat; and (4) Defendants used, or caused to be used, the mails or wires in furtherance of the scheme. *See Manual of Model Criminal Instructions for the District Courts of the Ninth Circuit*, Nos. 8.121 & 8.124. Whether or not facts omitted are material (*i.e.*, “capable of influencing”) is an objective test. *See, e.g., United States v. Peterson*, 538 F.3d 1064, 1072 (9th Cir. 2008). It is clear from these elements that the proof of the predicate acts will concern the scheme itself and its **objective** effect, *i.e.*, whether Defendants’ omissions were “capable of influencing” the class to pay money. Therefore, whether Defendants targeted one or one million victims is irrelevant; the proof and determination as to each element will be the same.

Here, Plaintiffs will prove Defendants engaged in a scheme to make and sell the Morning Song Bird Food with common proof of their conduct and knowledge and uniform omissions. If Plaintiffs succeed in proving the scheme, the claims of all Class members will be not just substantially advanced; they will be proven. *See McKenzie v. Fed. Express Corp.*, 275 F.R.D. 290, 299-300 (C.D. Cal. 2011).

Likewise, RICO does not require Plaintiffs to prove individual reliance. *See Bridge v. Phoenix Bond & Indem. Co.*, 553 U.S. 639, 660 (2008) (“RICO’s text provides no basis for imposing a first-party reliance requirement.”). RICO requires only “but for” and proximate causation – *i.e.*, a direct relation between the misconduct and the injury. *See In re Nat’l W. Life Ins. Deferred Annuities Litig.*, No. 3:05-cv-1018-GPC-WVG, 2013 U.S. Dist. LEXIS 20314, at *12 (S.D. Cal. Feb. 14, 2013) (“*Nat’l W. Life II*”) (denying defendant’s motion for decertification). Proximate causation under RICO “is a flexible concept that does not lend itself to ‘a black-letter rule that will dictate the result in every case.’” *Bridge*, 553 U.S. at 654 (quoting *Holmes v. Sec. Investor Prot. Corp.*, 503 U.S. 258, 272, n.20 (1992)). Instead, proximate causation is generally satisfied if the injury is “a foreseeable and natural consequence” of the scheme. *See Bridge*, 553 at 658. The scheme need not be the “sole cause” of the injury; it is sufficient to show the defendant’s misconduct was “a

1 substantial factor in the sequence of responsible causation.” *Oki Semiconductor Co. v.*
 2 *Wells Fargo Bank*, 298 F.3d 768, 773 (9th Cir. 2002).

3 And even if reliance is required here, Plaintiffs’ RICO claims are entitled to a
 4 presumption of reliance as they “primarily allege[] omissions.” *Binder v. Gillespie*,
 5 184 F.3d 1059, 1064 (9th Cir. 1999) (citing *Affiliated Ute Citizens v. U.S.*, 406 U.S.
 6 128, 153-54 (1972)). For claims alleging misrepresentations by omission, “[a]ll that is
 7 necessary is that the facts withheld be material, in the sense that a reasonable person
 8 might have considered them important in making his or her decision.” *Plascencia v.*
 9 *Lending 1st Mortgage*, 259 F.R.D. 437, 447 (N.D. Cal. 2009) (alteration in original).
 10 Here, Defendants concealed the fact that they used illegal pesticides labeled as toxic
 11 and hazardous to birds and other wildlife. It is self-evident that reasonable consumers
 12 buying bird food would have considered the presence of bird poison in that food to be
 13 an important factor in making their decision to purchase, but Plaintiffs have also
 14 submitted evidence that such a fact would have been important to them. *See* L.
 15 Cyphert Decl., ¶4; M. Cyphert Decl., ¶4; Cowin Decl., ¶4; Larson Decl. ¶4; Kirby
 16 Decl. ¶4. And, whether ultimately Defendants’ omission was material is up to the
 17 jury. *See Plascencia*, 259 F.R.D. at 447.

18 Even if the Court does not apply a presumption of reliance, certification of the
 19 RICO claims is still warranted as the material omissions were “a substantial factor in
 20 the sequence of responsible causation” as to all Class members, and the causal
 21 relationship between Defendants’ scheme and the victims is the same for everyone.
 22 The natural and intended consequence of the omissions about the pesticides was that
 23 Plaintiffs and the Class would purchase the Morning Song Bird Food. Thus, it would
 24 be almost irrational to say that Defendants’ material omissions were not “a substantial
 25 factor in the sequence of responsible causation.” *Oki Semiconductor*, 298 F.3d at 773.

26 This “‘common sense’ or ‘logical explanation’ for the behavior of plaintiffs and
 27 the members of the class” is a completely acceptable method of proving causation.
 28 *Nat’l Western Life I*, 268 F.R.D. at 665-66; *Negrete*, 238 F.R.D. at 491; *Kennedy v.*

1 *Jackson Nat'l Life Ins. Co.*, No. C 07-0371 CW, 2010 U.S. Dist. LEXIS 63604, at *28
 2 (N.D. Cal. June 23, 2010) (allowing inference of RICO causation where annuities
 3 were allegedly worth less than represented); *Garner v. Healy*, 184 F.R.D. 598, 602
 4 (N.D. Ill. 1999) (classwide proof of RICO causation permissible where car "wax"
 5 product was not actually "wax"); *Peterson v. H&R Block Tax Servs.*, 174 F.R.D. 78,
 6 85 (N.D. Ill. 1997) (classwide presumption of RICO causation permissible where class
 7 paid fees for services for which they were ineligible).

8 The First Circuit recently confronted a similar question in another RICO case
 9 involving off-label promotion of Neurontin. *In re Neurontin Mktg. & Sales Practices*
 10 *Litig.*, 712 F.3d 60, 68 (1st Cir.), *cert. denied sub nom, Pfizer Inc. v. Kaiser Found.*
 11 *Health Plan, Inc.*, __ U.S. __, 134 S. Ct. 786 (2013). Although *Neurontin* was not a
 12 class action, the question on appeal was whether the district court erred by not
 13 requiring plaintiff health-benefits-providers to prove on a prescription-by-prescription
 14 basis that the defendants' marketing campaign caused them to pay for more Neurontin
 15 prescriptions than they otherwise would have. *Id.* The first Circuit affirmed:

16 A tort plaintiff need not "prove a series of negatives; he doesn't have to
 17 'offer evidence which positively exclude[s] every other possible cause of
 18 the accident.'" *BCS Servs. v. Heartwood 88, LLC*, 637 F.3d 750 (7th
 19 Cir. 2011) (alteration in original) (quoting *Carlson v. Chisholm-Moore*
Hoist Corp., 281 F.2d 766, 770 (2d Cir.1960)). "Once a plaintiff presents
 evidence that he suffered the sort of injury that would be the expected
 consequence of the defendant's wrongful conduct," the burden shifts to
 the defendant to rebut this causal inference. *Id.* at 758.

20 *Id.*

21 Here, too, given that Plaintiffs and the Class paid for bird food but received bird
 22 poison, proximate cause for purposes of the RICO claim will be simple to resolve on a
 23 classwide basis. Even if Defendants argue that proximate causation for RICO
 24 purposes requires individual inquiry, that does not preclude class certification as it is
 25 still more efficient to try this case as a class action one time than to try entire
 26 individual cases a million times. *See Suchanek*, 2014 U.S. App. LEXIS 16259, at
 27 *21-*24.
 28

b. The California Consumer Fraud Claims Will Turn on Common Proof

In addition, this Court has sustained Plaintiffs' California consumer fraud claims, including their UCL, CLRA, and FAL claims. *See* Dkt. No. 44 at 8-9. These claims will also be proved with common proof of Defendants' material omissions about the illegal use of pesticides that are toxic and hazardous to birds.

There is no reason to look at the circumstances of each individual Class member because these claims focus on Defendants' misrepresentations (made by omission), and the fact finder need only determine if they would mislead a reasonable consumer. *See Yokoyama v. Midland Nat'l Life Ins. Co.*, 594 F.3d 1087, 1089 (9th Cir. 2010). California consumer fraud claims based on uniform sales practices, such as those alleged here, are precisely the types of cases that courts certify. *See, e.g., Keegan v. Am. Honda Motor Co.*, 284 F.R.D. 504, 541 (C.D. Cal. 2012) ("The touchstone of each state's law [California, New York and Florida] is whether a reasonable person would have found the relevant omission misleading."). Common issues will predominate as the claims are about the deceptive marketing by Defendants. Courts frequently find that common questions of law and fact predominate when the focus of the proposed class action "will be on the words and conduct of defendants rather than on the behavior of individual Class members," as is the case here. *Thomas & Thomas Rodmakers, Inc. v. Newport Adhesives & Composites, Inc.*, 209 F.R.D. 159, 167 (C.D. Cal. 2002).

Here, individual issues will not predominate because the success of Plaintiffs' California claims will depend on the effect of Defendants' failure to disclose its illegal use of Storcide II and Actellic 5E "upon a reasonable consumer, not a particular consumer[.]" *Yokoyama*, 594 F.3d at 1094. Indeed, "relief under the UCL is available without individualized proof of deception, reliance and injury." In *re Tobacco II Cases*, 46 Cal. 4th 298, 320 (2009). Because "[f]requently numerous consumers are exposed to the same dubious practice by the same seller so that proof

1 of prevalence of the practice as to one consumer would provide proof for all,” a case
 2 should be certified if it appears the defendant engaged in a common course of
 3 conduct. *Vasquez v. Superior Court*, 4 Cal. 3d 800, 808 (1971). Similarly, for CLRA
 4 claims, “reliance on the alleged misrepresentations may be inferred as to the entire
 5 class if the named plaintiff can show that material misrepresentations or omissions
 6 were made to the class members. *Chavez v. Blue Sky Natural Bev. Co.*, 268 F.R.D.
 7 365, 376 (N.D. Cal. 2010). Finally, false advertisements in violation of §17500 are
 8 suitable for class treatment where, as here, defendant disseminated standardized
 9 materials, such as the packaging, that did not disclose the pesticides. *See, e.g., Colgan*
 10 *v. Leatherman Tool Grp., Inc.*, 135 Cal. App. 4th 663, 700 (2006) (claims re: tools as
 11 “Made in U.S.A.” certifiable). Common issues will predominate here.

12 **c. The Missouri Consumer Fraud Claims Will Turn on**
 13 **Common Proof**

14 The Court also sustained Plaintiffs’ MMPA claims. *See* Dkt. No. 44 at 10.
 15 These claims will also be proved with common proof. Here, Plaintiffs must show Ms.
 16 Cowin and the Class “suffered an ‘ascertainable’ loss of money or property[.]” *In re*
 17 *Celexa & Lexapro Mktg. & Sales Pract. Litig.*, MDL No. 09-02067-NMG, 2014 U.S.
 18 Dist. LEXIS 3554, at *22-*23 (D. Mass. Jan. 10, 2014) (certifying MMPA claim for
 19 omission about Celexa and Lexapro’s efficacy in treating depression in children).
 20 Reliance is **not** an element of an MMPA claim. *See Plubell v. Merck & Co., Inc.*, 289
 21 S.W.3d 707, 714 (Mo. App. W.D. 2009). An ascertainable loss includes the harm to
 22 consumers deprived of the ability to make an informed choice about the product, such
 23 as material omissions about the safety of a product. *See Celexa*, 2014 U.S. Dist.
 24 LEXIS 3554, at *24. Because individualized reliance is not required, courts routinely
 25 find common issues predominate in MMPA claims. *See, e.g., id.*

26 Here, Plaintiffs and the Class suffered an ascertainable loss as the product was
 27 worthless as bird food or any use other than sitting in a landfill. §II.E. Plaintiffs and
 28 the Class were deprived of their ability to make an informed choice about the Morning

1 Song Bird Food because Defendants failed to disclose their illegal pesticide use.
 2 There is no honest debate that common issues will predominate for the MMPA claims.

3 **d. The Minnesota Consumer Claims Turn on Common**
 4 **Proof**

5 The Court also sustained Plaintiffs' Minnesota claims. *See* Dkt. No. 44 at 10.
 6 The Minnesota Consumer Fraud Act does not require a showing of individualized
 7 reliance. *See Certified Question United States Dist. Court Order v. Philip Morris*, 621
 8 N.W.2d 2, 14-15 (Minn. 2001) (holding that a plaintiff may prove causation through
 9 circumstantial evidence). These claims will be also be proven by common evidence.

10 **e. Full Refunds Are an Appropriate Methodology for**
 11 **Determining Damages Classwide**

12 “‘At class certification, plaintiff must present a likely method for determining
 13 class damages, though it is not necessary to show that his method will work with
 14 certainty at this time.’” *Makaeff*, 2014 U.S. Dist. LEXIS 22392, at *46. The amount
 15 of damages, even if it is an individual question, does not defeat class certification. *Id.*
 16 at *47 (citing *Leyva v. Medline Indus.*, 716 F.3d 510, 514 (9th Cir. 2013)).

17 Here, Plaintiffs allege they are entitled to full refunds for every bag of Morning
 18 Song Bird Food purchased, which is subject to mandatory trebling under the RICO
 19 Statute. *See* ¶¶30, 72; 18 U.S.C. § 1964(c). Each bag was worthless as bird food
 20 because it was coated with bird poison. Indeed, the Storcide II label reads: “Exposed
 21 treated seeds *are* hazardous to birds and other wildlife. Dispose of all excess treated
 22 seeds and seed packaging by burial away from bodies of water.” §II.A., p.4. SMG
 23 has pled guilty to knowingly manufacturing, marketing, and selling Morning Song
 24 Bird Food with harmful pesticides that are known to be, and labeled as, toxic to birds
 25 and other wildlife. And Defendants have recognized the products' worthlessness by
 26 burying recouped product in landfills. §II.E.

27 This is nearly identical to the situation in *Garner*, 184 F.R.D. 598. There, the
 28 court used a full-refund approach where the plaintiffs “‘paid money for a ‘wax,’ but
 instead received a worthless ‘non-wax’ product[.]” *Id.* at 602. Likewise, the

1 damages are analogous to the losses suffered by the victims in *United States v.*
 2 *Kennedy*, 726 F.3d 968, 974 (7th Cir. 2013), who paid for fraudulent artwork. Last
 3 year, the Seventh Circuit concluded that the “actual loss” attributable to such a fraud
 4 and the appropriate amount of restitution is the ***entire amount paid*** “for artwork that
 5 turned out to be fraudulent.” *Id.*; *Lee v. Carter-Reed, LLC*, 4 A.3d 561, 580 (2010)
 6 (each bottle of fat-reduction pills was a “bottle of broken promises”).

7 Plaintiffs’ method of calculating damages based upon trebled refunds is
 8 appropriate. Courts have emphasized: “***A plaintiff injured by civil RICO violations***
 9 ***‘deserves a complete recovery[.]’***” *Maiz v. Virani*, 253 F.3d 641, 664 (11th Cir.
 10 2001); *Carter v. Berger*, 777 F.2d 1173, 1176 (7th Cir. 1985) (holding that, under
 11 RICO, “the directly injured party should receive a complete recovery, no matter
 12 what”); *Pac. Gas & Elec. Co. v. Howard P. Foley Co.*, No. 85-2922 SW, 1993 U.S.
 13 Dist. LEXIS 21414, at *8-*9 (N.D. Cal. July 27, 1993) (“A plaintiff prosecuting a
 14 civil RICO claim is entitled to complete recovery for the harm that proximately results
 15 from the predicate acts.”). And RICO provides flexible concepts of causation and
 16 damages to ensure a defendant is held liable ““for the consequences of that person’s
 17 own acts.”” *Bridge*, 553 U.S. at 654 (quoting *Holmes*, 503 U.S. at 268). Plaintiffs
 18 may recover all damages that are the “foreseeable and natural consequence[s]” of the
 19 fraud. *See id.* at 658. This includes the return of monies paid by them. *See* Jed S.
 20 Rakoff, RICO: CIVIL & CRIMINAL LAW & STRATEGY, §4.02[3] (Supp. 2013).

21 **2. Class Treatment Is Superior in This Case**

22 Rule 23(b)(3) requires a class action to be “superior to other available methods
 23 for the fair and efficient adjudication of the controversy.” Fed. R. Civ. P. 23(b)(3)).
 24 This factor “requires determination of whether the objectives of the particular class
 25 action procedure will be achieved in the particular case.” *Hanlon*, 150 F.3d at 1023.

26 Two key factors for “determining superiority are the ‘extent and nature of any
 27 litigation concerning the controversy already commenced by or against members of
 28 the class,’ and ‘the likely difficulties in managing a class action.’” *Id.* Here, Plaintiffs

1 are not aware of any other litigation commenced by the Class for refunds for the
 2 Morning Song Bird Food. And there will be no difficulty in managing this case as a
 3 class action as it would involve one nationwide claim and only three state subclasses.
 4 *See, e.g., Makaeff*, 2014 U.S. Dist. LEXIS 22392, at *62-*63 (certifying five
 5 subclasses, including California, Florida, and New York).

6 Further, courts consider “the difficulty and complexity of the class-wide issues
 7 as compared with the individual issues.” *Suchanek*, 2014 U.S. App. LEXIS 16259, at
 8 *24. This takes into account the reality that “class issues often will be the most
 9 complex and costly to prove, while the individual issues and the information needed to
 10 prove them will be simpler and more accessible to individual litigants.” *Id.*

11 Here, for example, resolution of the class issues will require extensive
 12 discovery into Defendants’ scienter, manufacturing processes, and marketing
 13 materials, whereas proving the individual amount of damages for each Class Member
 14 can be adjudicated “in individualized follow-on proceedings.” *See id.* Moreover,
 15 Plaintiffs would not be able to pay an attorney to pursue their claims individually. L.
 16 Cyphert Decl., ¶11; M. Cyphert Decl., ¶9; Cowin Decl., ¶9; Larson Decl. ¶9; Kirby
 17 Decl. ¶9. Indeed, no rational plaintiff would bear the cost of this lawsuit to recover
 18 the amount of money spent on Morning Song Bird Food; thus, proceeding as a class
 19 action is superior. *See Suchanek*, 2014 U.S. App. LEXIS 16259, at *25.
